I. General and Administrative Information

A. Background and Purpose

The Louisiana Housing Corporation (referred to as both “LHC” and the “Corporation”), seeks responses to the RFQ for the purpose of selecting a qualified and experienced primary service provider/contractor for the administration of the Weatherization Assistance Program (WAP) for Jefferson Parish.

Only Community Action Agencies (CAA), public or nonprofit entities may respond to this RFQ.

The Weatherization Assistance Program (WAP) was established under Title IV of the Energy Conservation and Production Act and amended by the National Energy Conservation Policy Act, the Energy Security Act, the Human Services Reauthorization Act of 1984, and the State Energy Efficiency Programs Improvement Act of 1990. The Program is funded at the federal level by the U.S. Department of Energy (DOE). The LHC serves as the Grantee for the Louisiana WAP, which sub-contracts with a network of local CAAs and governmental entities to provide services in Louisiana’s 64 parishes, based on availability of funding.

WAP is utilized to increase the energy efficiency of dwellings owned and/or occupied by low-income persons, reduce total residential expenditures, and improve health and safety.

The LHC was created to consolidate funding sources and programs for affordable housing throughout the state and to provide for a coordinated approach to overall state housing policy. Prior to the establishment of LHC in 2012, federal and state housing dollars flowed through many different state agencies, including the Louisiana Housing Finance Agency (LHC’s predecessor), the Office of Community Development, the Department of Health and Human Services, the Department of Children and Family Services, and the Louisiana Housing Authority. Collectively, these agencies managed programs from homelessness prevention to single family homeownership and Multifamily developments for the low to moderate income families. To service the state’s housing needs, LHC works with a variety of external entities, including lenders, developers, property managers and non-profit organizations. Many of our housing programs are federally funded, which requires a working relationship with government agencies such as the U.S. Department of Housing and Urban Development (HUD), the U.S. Department of Energy (DOE), and the Department of Health and Human Services (DHHS).
